DESIGN

MADE FOR LIFE

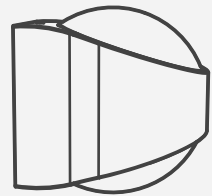

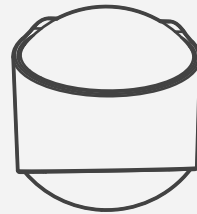

From jewelry to light

It inspired from jewellery design to achieve the outdoor lighting industry as exquisite as artwork. The design starts with the optical lens which comes from the feeling of crystal, also combined with architecture to offer the services of artistic, comfort and sustainability.

Artistic

Feeling of artwork. An exquisite appearance comes from the simple geometric form and the high-end glass of the sheye lens.

Comfort

Feeling of comfort atmosphere. With "Flickering free" and unique lighting form, the surroundings become visual-comfort and with an elegant atmosphere.

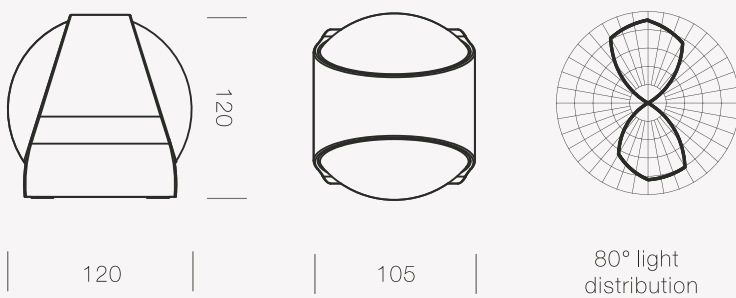

Sustainability

We hope to take responsibility to make designs and products and solutions that are efficient, to get environment friendly, also to be a reliable outdoor lighting tool.

Product Description

The clear spherical glass is combined with an internal optical lens above the LED, appears to the pearl in the clear glass, produces glare-free contoured uplight and downlight and gives the luminaires a multi-dimensional look. Perfect for expressing your high standards and individuality – inside and outside.

Finish Available

Matt Black

Matt White

Technical Information

Light source: CREE COB

Color temperature: 2.700K

Color rendering index: CRI > 90

SDCM: < 5

Integrated driver: Yes

Luminaire connected wattage: 12.5 W

Voltage: AC220-240V 50/60Hz

Flicker-free driver: Yes

Power factor: > 0.9

Luminous ux: 1250 lm

Light optics: 2x80°

Light distribution: Double-sided output

Protection class: IP65

Impact strength: IK 06

Safety: Class I

Double cable entry: Yes

Luminaire weight: 1.14kg

Not dimmable

1. In & Outdoor IP65

2. Flickering free driver

3. Anti-glare reector

4. Visual comfort optical lens

5. Spherical geometry glass

6. Double cable entry
